## Lea, Henry C.

The District-Wide Survey is one of SDP's best tools for **assessing different perspectives across topics**. The surveys collect feedback from parents, students, and teachers. Most survey questions relate to one of six topics important to school improvement: **Climate, Instruction, Leadership, Professional Capacity, Parent/Guardian-Community Ties, or Equity and Inclusion**. The more positive the feedback received, the higher the score for each topic. **The highest possible score is 10.**

### Sample question:

How often is this statement true?

"I enjoy being in school."

## Survey Participation

### Students

52.2%<sup>+17.8%</sup>  
from 20-21

# 21-22 responses:  
143

### Teachers

75.7%<sup>+16.2%</sup>  
from 20-21

# 21-22 responses:  
28

### Parents

15.0%<sup>+0.5%</sup>  
from 20-21

# 21-22 responses:  
54

**Higher survey participation provides more accurate results.**

To display teacher and student results, the response rate must be at least 25%.

To display parent/guardian results, the response rate must be at least 10%.

## Feedback Trends Over Time

**How to read this figure:** The points on the chart show the average score for each topic every year. The topics are color-coded according to the key at right. Upward movement shows more positive responses while downward movement shows less positive responses. If a topic or topics have missing scores, it typically means that there was a low response rate or missing data from at least one group.

## Topic Results by Respondent Group
